VOL. XIV. NO. 223.

LIMA, OHIO, SATURDAY, JULY 2, 1898.

PRICE THREE CENTS.

THE BATTLE IS RAGING

Beneath the Scorching Cuban Sun.

Elcaney and Aquadores Both in Possession of
Americans

And the Capture of Santiago is a Matter of a Few Hours
---Pando's Reinforcements Have Reached the
City---Lawton and Rabi Hope to Pre-
vent a Junction With Linares.

Special to Times-Democrat.
Guantanamo, July 1, via Playa Del Este.—Elcaney has been captured. Aquadores has fallen. Santiago only remains and is now being attacked. Its fall is only a question of a few hours. A courier brings these dispatches over the mountains from El Pazo ranch, near Caney. Shafter this morning moved on Santiago. The second division, under Lawton, attacked Elcaney three miles north of Santiago. Wheeler's cavalry corps, under Sumner, took the center valley and planted Grimes' battery of four guns of the second artillery on a hill 2,000 yards from the first defenses of Santiago. Duffield advanced up the railroad track and bridge to make a tent. Chaffee's brigade led Lawton's advance. Ludlow with a supporting brigade took a position in the valley.

Pearson's second brigade of the first division was in the rear and with Sumner in the center waited orders to go to the front.
Capt. Allyn Capron's battery, on a cliff a mile and a half distance, opened fire at 6:10 in the morning. The air was filled with a haze and the sun was scorching hot. At 6:40 Capt. Grimes' battery on El Pazo hill opened from the center. The work was all up hill and the first attack was directed at the block house at which the Spanish battery was planted. The Spanish made no reply until after the tenth shot. Then their shells began to pass over El Pazo. They had the range beautifully but nearly all their shells burst in the air over the hill. One, however, went through the engine house and wounded a cavalry man.

HOSPITAL SHIP, Fully Equipped, with Additional Medical Officers and Supplies, Asked for by Shafter.

Special to Times-Democrat.
Washington, July 2.—The opinion is growing that the number of fatalities and wounded in the American army in yesterday's battle before Santiago is much greater than was at first returned. The war department short-

ly after 10 o'clock this morning received the following dispatch from Shafter: "I fear I have underestimated our loss. Must have fully equipped hospital ship at once, and additional medical officers and supplies; also a launch."

SPANISH SHIPS Have Entered the Suez Canal

Special to Times-Democrat.
Washington, July 2.—The state department has received the following dispatch from Port Said: The Spanish ships Colon and Cavadonga entered Suez canal yesterday. The rest, with the exception of the one repairing, left the harbor, coaling from transports.

ried to Hampton roads. There they will be put in shape and the cruise will then begin. Ten days will probably elapse before the ships will be ready to sail.

CORNELL WON In the Freshman Race To-day.

Santiago Lake, N. Y., July 2.—The freshmen race between the crews from Cornell, Columbia and Pennsylvania took place this morning. Cornell won easily by four lengths. Columbia was second, half length before Pennsylvania.

GEN. PANDO Enters Santiago With Troops.

Special to Times-Democrat.
New York, July 2.—Sylvester Scovel cables the evening World that Pando yesterday entered Santiago with 6,000 men, the Cubans, 800 strong, who tried to check his advance, being dispersed.

WATSON'S FLEET Will Not Sail For Ten Days.

Special to Times-Democrat.
Washington, July 2.—It is stated that the eastern squadron under Watson will not be sent to Spain until after the fall of Santiago and the capture or destruction of Cervera's fleet. Then the vessels that will compose the eastern squadron will be hur-

NO WORD Received From Shafter.

Special to Times-Democrat.
Washington, July 2.—At 1 o'clock it was said at the war department that no dispatches had been received from Shafter in which mention was made of fighting having occurred at Santiago to-day.

GONE TO SEA. Spanish Torpedo Boat Sails.

Special to Times-Democrat.
London, July 2.—A dispatch to Lloyd's from Port Said says that the Spanish torpedo boat, Prosperina, of Camara's squadron, has gone to sea.

LAWTON'S MEN Will Intercept the Spaniards.

Special to Times-Democrat.
Washington, July 2.—Advices have been received at the war department of Gen. Pando's arrival at Santiago with his troops. The officers there say that Lawton's brigade and Gen. Rabi with a large force of Cubans are to the northward of Santiago to intercept Pando and are quite confident that Pando will not succeed in forming a conjunction with Linares at Santiago.

ENCOURAGED By Arrival of Pando's Men.

Special to Times-Democrat.
Playa Del Este, July 2, delayed in transmission.—The Spaniards were encouraged in yesterday's battle by the arrival of Pando and 3,000 men. Pando made the forced march from Manzanillo without being disturbed, except by Cuban guerrillas. He reached San Luis at 9 o'clock yesterday morning.

NO NEWSPAPERS Published in Chicago To-day.

Special to Times-Democrat.
Chicago, July 2.—The unexpected closing down of every daily newspaper in Chicago, owing to the demands of the stereotypers' union, has created a furor among printers and pressmen as well as stereotypers. At 10 o'clock this morning George Harris, organizer for the International Typographical Union, went into session with the committee from the stereotypers' union to consider the situation. The stereotypers are confident that a compromise would be effected to-day, but from information received by the officers of the typographical union a settlement of the trouble with stereotypers is far off. Newspaper publishers will positively refuse to treat with stereotypers on any other basis than complete surrender, and to carry their point will stop publication of every daily paper for a month if necessary. Printers and pressmen are loud in their criticism of the stereotypers. When the latter notified newspaper publishers last night that the new scale would go into effect immediately, arbitration was suggested by the publishers, but stereotypers said they had nothing to arbitrate. Orders were immediately given to printers, pressmen and other employees of every daily newspaper in the city to go home and remain there until sent for. To-day, on a bulletin board of every daily paper appears a statement of the difficulty. Bulletin boards, however, are bare of any information from Santiago or any other source. At ten o'clock, newspapers from other cities had not arrived. News quarantine is successful, so far as the public at large is concerned, and unless outside newspapers are sent to Chicago, people of this city will be completely shut off from the outside world. Every newspaper office is deserted.

The publishers held a meeting at noon and decided that if all the stereotypers did not return to work to-night at the old wages and conditions, not one of them would be re-employed. Printers and pressmen who have been thrown on the streets by the strike say they will oppose being dragged into the affair. At noon a South Chicago newspaper published an edition of 40,000 and sent it to the city. The paper contained a story of yesterday's battle and other late war news and before one o'clock every paper had been sold, some bringing as high as twenty-five cents. Crowds gathered around the lucky purchasers and forced them to read the war news aloud.

REGATTA HONORS Were Won by Pennsylvania.

Special to Times-Democrat.
Saratoga, July 2.—In the boat race to-day Pennsylvania won by 7 lengths. Cornell beat Wisconsin by a nose. Columbia finished fourth.

Just One Stamp.
Washington, July 2.—The commissioner of internal revenue has held that a wharf receipt given to a shipper by their receiving department, in exchange for which a bill of lading is issued bearing a 1-cent stamp, does not also require a 1-cent stamp. The stamp on the bill of lading is regarded as meeting the requirements of the law. It is also held that the 2-cent stamp affixed to an export bill of lading and duly cancelled is all that is required under the new law.

FIGHTING RESUMED, But No Information Has Reached Washington as to the Progress Being Made.

Special to Times-Democrat.
Washington, July 2.—Secretary Alger left the white house shortly after 1 o'clock, after having been in conference with the president for two hours. He said that fighting was resumed this morning, but that no advices had been received as to the progress being made.

EXCESSIVE HEAT Prevails at Santiago, the Mercury there Standing at 106 ---War Officials Fear the Result of It.

Special to Times-Democrat.
Washington, July 2.—Information from the field before Santiago is meager this morning, but indications are that the American loss is greater than was at first estimated. At 9:30 o'clock the only information received by the war department was a dispatch to secretary Alger which stated that the temperature there was 106. This excessive heat is causing uneasiness among war department officials who fear its enervating effect upon our troops.

SAW A BALLOON. Air Ship Sent Up Over Santiago to Take Observations.

Santiago, Cuba, July 2.—A balloon sent up from the American camp was seen in Santiago on Thursday. In it were two men seemingly taking observations of the Spanish fortifications about Santiago.
About the Balloon.
The balloon that is now in active use and sailing over the beleaguered city of Santiago and in plain view of 23,000 Spaniards and 17,000 Americans, was shipped from Tampa with Shafter's forces together with the submarine cables and other field telegraph equipment now being used by the signal corps of the regular army in Cuba.

Mr. W. J. Lloyd, assistant district superintendent of the Western Union Telegraph company, says that it is probably one of the finest and most improved equipments used in warfare. This balloon was shipped from Paris early in May and is being charged with oxygen gas from the tubular reservoirs which have been in use by the army for experiment purposes at Fort Riley. The balloon is first charged and then allowed to ascend by means of wire cables from a large reel made fast to a field wagon.

The cable is used as a telegraph and telephone conductor, and the occupants of the balloon transmit to the ground their observations. There is little danger of the balloon being pierced by a rifle shot on account of its constantly swaying condition and the extreme difficulty of hitting anything at an elevation of 2,500 feet, which is the usual limit of a cable reel.

Germany Takes a Tumble.
Manilla, June 28, via Hongkong, July 2.—The non-arrival of the American troops has grievously disappointed Admiral Dewey, but the Americans still count on celebrating the Fourth of July in Manilla. It is reported Admiral Von Diederichs sent two vessels away on learning that America regarded his attitude as unfriendly. A wholly improved feeling now exists. The American officers express confidence in their ability to dispose of any ships Spain can now send, but in view of the alleged strength of Admiral Camara's squadron, the wish is expressed that the Americans had at least one battleship.

One Sensible Spaniard.
London, July 2.—Frank Caruth, the head of the Philippine Chemical company, has received a letter from a prominent Spanish business man in Manilla which says: "According to our latest news the Americans have suffered in Cuba, but that will not matter much, for sooner or later our side must succumb, as we have neither money nor materials. What is most feared here is the Spaniards themselves. I hope to God if the Yankees take the islands they will keep them."

Reinforcements For Shafter.
Tampa, Fla., July 2.—The transport Louisiana sailed from Port Tampa last Tuesday bound for Santiago with reinforcements for General Shafter. The Louisiana carried 150 recruits under command of Captain W. H. James for General Shafter's army, the Thirty-second ambulance corps, consisting of 19 privates, one officer, 12 recruits, eight horses, two bell horses, 40 ambulance mules, 130 pack mules, ten ambulances and 28 pack mules.

Will Divide His Fleet.
Cairo, July 2.—It is believed that part of Admiral Camara's squadron intends to proceed westward and the rest eastward. The local colliers, it appears, intended trying to go to the Red Sea to tranship their coal to Spaniards there, but this they are not permitted to do because it would be a breach of neutrality. Admiral Camara can only coal from one of his own colliers in the Red Sea.

They Seem to Forget.
London, July 2.—The Berlin corre-

FIRST DAY OF MONTH Seems to Be America's Day For Decisive Battles.

NO DOUBT ABOUT RESULT.
Attack on Santiago Was Made
---Sooner Than Expected.

THIS SHOWS SHAFER'S ENERGY

It Was the General Opinion in Washington That the Spanish Troops Would Retreat When the Battle Opened in All Its Fury.

Washington, July 2.—Just two months after the battle of Manila, and on the first day of the month, like that glorious engagement, began the first set battle of the war in this hemisphere. The officials here are confident that they have done everything possible to strengthen Shafter's hands for the great conflict he is waging and they have an unlimited confidence in his discretion, his bravery and his energy. The attack, several days before the public mind expected the battle, is a tribute to his energy as well as to his judgment, according to the present lights, for he undoubtedly found it necessary to crush the foe in detail, following Napoleon's favorite maxim, instead of allowing them to consolidate and outnumber him.

As the day wore along without bringing any news the anxiety increased and the question was in every one's mouth, "Why did he not report?" Adjutant General Corbin's response was brief, but pointed: "He is fighting; not writing," and this was accepted as a likely and sound explanation.

Just before 4 o'clock came a brief dispatch from Playa del Este, the cable station near Santiago. But it was from an engineer officer to General Miles and made no reference to the progress of the battle, merely referring to certain necessary material and live stock.

On the whole this very absence of official news was regarded as rather a favorable indication, the reasoning being that the engagement was but a heavy skirmish and that our army was feeling the enemy to discover and strike at his weak spot. It was nearly 6 o'clock when the signal office received the welcome news that the enemy was retreating. Brigadier General Stone was inclined to believe that after maintaining their stand during the day the Spaniards would retire during the night, leaving the city evacuated.

The military authorities here are fully considering the chances of such a retreat of the Spanish army from Santiago and are endeavoring so to shape events that General Shafter's force will not only take Santiago, but will capture the 12,000 Spaniards before they get away northward to effect a junction with General Pando. Full information as to the possible lines of retreat has been placed at the disposal of the war department.

Shafter's Report of Battle.

Siboney, Cuba, July 2.—Had a very heavy engagement which lasted from 8 a. m. till sundown. We have carried their outworks and are now in possession of them. There is now about three-quarters of a mile of open between my lines and the city. By morning troops will be entrenched and considerable augmentation of forces will be there. General Lawton's division and General Bates' brigade have been engaged all day in carrying El Caney, which was accomplished at 4 p. m. Will be in line and in front of Santiago during the night. I regret to say that our casualties will be above 400. Of these not many killed.

A Diplomatic Rumor.

Washington, July 2.—In a high diplomatic quarter it was stated that word had been received indirectly, but in such a manner as to receive credit in this quarter, that the American forces had taken Santiago. There is, of course, no means of verifying this statement, but it is given in view of the fact that the diplomatic sources who credit the report usually are in a position to have accurate information.

Dun's Weekly Review.

New York, July 2.—R. G. Dun & Company's weekly review of trade says: The second quarter of the year closes with most encouraging returns. Failures have been a little larger than in the first quarter of the year, whereas a decrease of 6.2 per cent. might have been expected from experience of the past ten years, but with that allowance a difference of only \$3,500,000 can be charged to war and fears of war, whereas solvent payments through clearing houses for the quarter were over \$15,600,000,000. Failures for the week have been 254 in the United States, against 241 last year and 15 in Canada against 30 last year.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—

CALIFORNIA FIG SYRUP CO.

THE TIMES-DEMOCRAT.

THE TIMES-DEMOCRAT PUBL. CO.

OFFICE—TIMES BUILDING,
No. 221 North Main Street, Lima, O.
TELEPHONE CALL, No. 84.

Issued Every Evening Except Sunday

OUR FRIENDS THE ENEMY.

In order to create dissension in Democratic ranks, Ohio Republican papers are now busy working the Brice bugaboo. The Cleveland Leader pretends to have unearthed a gigantic scheme to down Bryan and the Chicago platform at the state convention and boost Brice and John Farley. A fake interview is printed with a "prominent free silver Democrat," whose name is not mentioned, of course; and this imaginary Democrat goes on to say that Brice is trying to gain control of the party; that Joe Dowling is in the game; and is fixing up delegations; that Lew Bernard has already named the delegation from Hamilton county; that the same thing is being worked in Lucas county, etc.

That story reads well, but would read better if the Leader knew a little more about the facts. Putting John Farley, Joe Dowling and Lew Bernard into the same political bed would go mighty hard with the covers. Farley has been tied up too close to Hanna to cut any ice outside of Cuyahoga county for his standing in the Democratic party since 1896 hasn't been good. Lew Bernard is a John McLean man, body and breeches, and McLean doesn't like a hair on Brice's head, though he fears every one of them. Dowling and Bernard don't like each other a little bit. Brice is in Europe. McLean is playing the McKinley racket. And there you are.

The Leader, naturally enough, would like to kick up a fuss in the Democratic party in order to counteract the effect of the Hanna-McKisson row in Cuyahoga county. And the game is to hold Brice up as a scare-crow. There is one important fact, however, which our Republican as well as our timid Democratic friends should remember: No Democrat, who failed to support Bryan loyally in 1896 can gain control of the Ohio Democracy.—[Toledo Bee.

A BIG WHEAT CROP.

Present estimates place the wheat crop of this country for this year at seven hundred million bushels. If it reaches that figure it will be by far the largest ever grown. Further, it is predicted that owing to a short crop in other wheat growing countries the grain ought to bring a fair price, but the prospects are the grain gamblers will force the price down until they have a corner on the wheat, then put the price up. Comparatively few people are benefited by such transactions.

SELECT GOOD MEN.

That labor commission bill, recently passed by congress, will be good or bad, according to the character of the men who are chosen for commissioners. The commission is to be composed of five senators, five representatives, and nine outsiders representing all branches of industry. Its duty will be to recommend legislation to congress.

NO DISCRIMINATION IS MADE.

There is no discrimination made by the new tariff in laying taxes on the common tobie cigar selling three for a nickel, and the bond buyers' brand costing 25 cents apiece. The tobie costs \$10 per 1,000 and is taxed 60 cents, just the same as the finer brands costing \$50, \$100 or \$200 per thousand.

LUCKY MCKINLEY.

The Van Wert county Republican central committee is the only body so far reported that has discovered the fact and congratulated the president on it, that the army and navy stands by him. Here is the resolution:

"We congratulate him that, in his efforts, he has the support of the heroic American army and navy."

We are surprised, now that our attention is called to it, that nobody else has seen the awful, if not ridiculous, position our president would have been in if the army and navy had kicked and refused to support him. Imagine the president as commander-in-chief of all the armies and navies of the great United States, sailing away in the Dolphin, or any other government light house tender, to Cuba and demanding the surrender of Blanco and his bad crowd! What an aspect that would have been to Blanco sent out a gunboat and took him in! Or 'sposin' the president's proclamation and orders had been ignored by the army and navy as not meeting their approval, and the big admirals and generals had sat quietly back in the barracks and cabins and winked the other eye when McKinley told them to come out and fight.

The more we think of it, the more we admire the statesmanship of the committee that has thus discovered the key to success of the war so far. We hope when that committee meets again that it will also congratulate the army and navy on their "efforts." The committee doesn't say what "efforts," but it is, of course, understood to mean efforts in war rather than bond sales; it may include efforts to capture Hawaii, too. In fact, it will include all the president is "up to," even to downing Mark Hanna's enemies, which is a warning to the Foraker fellows to hunt their holes.—[Delphos Courier.

A DEFICIENCY PRODUCER.

Customs receipts for the year ending yesterday foot up a little less than \$150,000,000, or a loss of \$26,500,000 as compared with the previous year.

This will convince everybody but Dingley as to the inefficiency of the Dingley tariff as a revenue producer. There was no reason except the Chinese wall duties why imports should have been at the lowest point known in years, for we were exporting heavily and our people had a big balance in their favor to purchase with. If Dingley's primary object was to prevent a liberal import trade and thus decrease revenues, these figures show his measure to have been a great success. For any other purpose the figures which can be depended on not to lie show it to have been a conspicuous failure.

It may be hoped that the new war revenue bill will not prove so disappointing in operation. With the country at war any further reduction of government receipts would be disastrous.

EGYPT SAYS NAY.

As might have been expected, there was no truth in the report that permission had been granted by the Egyptian government to admiral Camara to recede his ships at Port Said from his own colliers. It is a well-settled general principle of international law that neutral powers shall not permit the augmentation of the fighting strength of belligerent vessels within their territorial waters, and the reported concession of Egypt to Spain would have been in direct conflict with the neutral obligations of the khedive's government. Moreover, the interests of Egypt as a maritime nation are in complete accord with her obligations as a neutral. It might be a matter of indifference to the United States if Camara's squadron should be speeded on its way to Manila to meet its doom at the hands of admiral Dewey's fleet; but in common with all other trading nations, Egypt would be best served by the confinement of hostilities to the narrowest of limits in order that sea-borne commerce might suffer as little embarrassment as possible.

GOOD FOR THE DEMOCRATS.

Hanna is the Republican party of Ohio. It took him but eleven minutes to make a ticket at Columbus last week. He did this by seating rump delegates instead of the regularly constituted delegates. He may want the votes of these rejected Republicans next fall. All things are working together for a splendid Democratic and free silver victory in Ohio next fall.—[Napoleon Northwest.

THE DECLINE OF WHEAT.

The bulk of last year's wheat crop was sold by the farmers at from 55 to 70 cents per bushel. After it got into the hands of the speculators much higher prices prevailed, but very few farmers got any benefit from the advance. Now that the time for marketing this year's crop is approaching, the price is sinking back to the old 60 cent notch again. If the Republican party deserves credit for the recent high price of wheat, it is also to blame for the much lower price it is selling at now.

BUSHNELL'S OPINION.

Speaking of the Republican, or, more correctly, the Hanna convention, governor Bushnell in an interview said:

To be brief and to the point, I do not regard either it or its proceedings as representative of the Republicans of Ohio. It was, to a great extent, a packed assemblage of men who either are already indebted to Mr. Hanna for federal offices or who expect to be. It did not represent the great mass of Ohio Republicans nor voice their sentiments. The gentlemen who made it to order assume to be the Republican

SOLDIERS AT TAMPA.

How They Spend the Working Hours Each Day.

NOT EXPECTING TO MOVE SOON.

They Have Been Fooled So Often That They Will Not Believe an Order to Sail Until They Are Actually Tiding the Waves—Three Ohio Regiments Are There.

Tampa, Fla., July 2.—[Special.]—In Tampa bay, within plain sight of the camp of the First Ohio infantry, there are nine transports either at anchor or tied to the docks. A force of workmen are at work building banks in them and loading them with supplies. This fact in itself would have set the soldiers in camp here in a fever of excitement about three weeks ago, but they view the sight now without any great interest.

Last week every Ohio regiment, and indeed almost every regiment stationed in this part of Florida, was ordered to lay in a supply of 45 days' field rations and five days' traveling rations. This order was kept a secret and its contents were never divulged to the newspapers. The colonels of the different regiments were all instructed that they must be in readiness to depart from Tampa in four

where every rumor sets them 200% still the significance of what is happening here is not lost on them. They think they are going some time, and they are preparing by hard drills every day for the real work that is before them. The rattle of blank cartridges can be heard almost every day in the vicinity of the Ohio camp. While their neighbors are wasting their blank ammunition in volley firing the Ohio men are learning the art of bushwacking and skirmishing, which their officers believe is the form of fighting that will have to be employed against the Spaniards. The Third and Fifth Ohio are camped side by side, and the country around them is fairly well adapted for the purpose of teaching the art of war. In their near vicinity are woods filled with tangled underbrush, pine groves, open and easy of access; fields covered with saw palmettos, amongst which a whole battalion can conceal itself as effectually as if buried; roads, railroads and indeed every conceivable sort of country except the hilly. The battles fought over this territory are not of the Fourth of July sham battle kind, gotten up for the delight of excursionists and sightseers. Every attention is given to the details of military discipline. The work is fearfully hard under these Florida suns and not a drill passes that does not result in the collapse of some soldier, but fortunately none of these incidents have proven serious. The most trying part

the orderly marching of soldiers is impossible. Over such obstacles as these the men of the First regiment and do the best they can.

Undoubtedly the most interesting even of the week to the soldiers themselves is the arrival of the new recruits. A large number of these are already here and more are coming. The first to arrive came Friday to join a company of the Third regiment. Saturday the First got its consignment, and now every train brings in fresh arrivals. Reports received here from Lieutenant Colonel Milliken, who had charge of the recruiting for the First regiment, are of the most gratifying nature, and no doubt exists that the First will be fully supplied with new men in a short time. The Third is little, if any, behind, but the Fifth seems to lag a little. No recruits have yet been added to that regiment, and the first lot, which is expected soon, will be divided among several companies, as no company has its full supply yet.

Loud and hilarious are the greetings which the "rookies" get when they first appear in camp. The older men look upon the newcomers as a college man views a freshman, and all sorts of pranks have been planned for their reception. Dousing with cold water and cutting the tent ropes after the innocent recruit has gone to sleep are among the mildest tricks contemplated, but nothing of the sort seems to have been done yet, and the recruits will soon drop into the ways of those who have been here long enough to learn a little about how to live in a Florida camp.

That Snake Story.

The story of the Company H snake which made so much trouble in the First Ohio has been told in these columns. He hung around Company H street and frightened the men half out of their wits by rolling out of their blankets and coming into their tents at night. He was an enormous specimen of one of the several sorts of poisonous snakes which infest Florida swamps, and finally Lieutenant Colonel Milliken shot him one day and was arrested by order of Colonel Hunt for making a needless disturbance. Colonel Milliken was discharged, the snake died and the incident ended. As if to obscure the matter altogether fortune sent the First another and a bigger snake. He was driven out of a neighboring swamp by a fire and glided over among the tents. There he was discovered Saturday and a detail of men was sent to surround him and send him into the great beyond. He was a rattler having eight rattles, and truthful witnesses aver that he measured six feet. The first volley ended his existence.

The study of snakes is not the only branch of natural history which the men find to interest them during the lazy Florida days after drill is done. Myriads of fiddler crabs inhabit these shores. The native Florida man takes no more interest in them than a northern farmer does in grasshoppers, but to the strangers here they strange little denizens of the seashore are a never-failing source of interest. Their bright colors, strange habits and enormous numbers never fail to attract. They are to be found literally by millions on the shores of Tampa bay. Over the bay one can see at any time the great awkward pelicans soaring in a search of fish, and once in a while one of them drops with a splash into the water and flies away with an unfortunate fish in the sack beneath his bill.

Happy Day in Camp.

Of all glad days in a soldier's calendar pay-day shows out the brightest. It is astonishing how quickly a regiment of men can get rid of the \$15.00 or thereabouts which it takes to pay it for a month's work, and when the money is gone there are the long days again when the ice-water at the public tank is the most expensive drink indulged in, and streetcar rides to town are out of the question. It was in this unfortunate condition that Paymaster McArthur found the First regiment Sunday and made it glad by paying the men their first installment of government money. The Fifth and Third will be paid soon. They each have a little over \$7 coming to them as back pay, in addition to a full month's pay.

Even among men and officers here much confusion exists as to what regiments are brigaded together, and the following statement of how the Ohio regiments now here are brigaded will be of value to those at home who wish to keep track of the boys at the front: The Third brigade, Second division of the Fourth corps consists of the One Hundred and Fifty-seventh Pennsylvania, First Ohio and First Indiana. The Third division, Second brigade consists of the Fifth Ohio, Thirty-second Michigan and First Florida. The Second brigade consists of the Sixty-ninth New York, Third Ohio and Second Georgia.

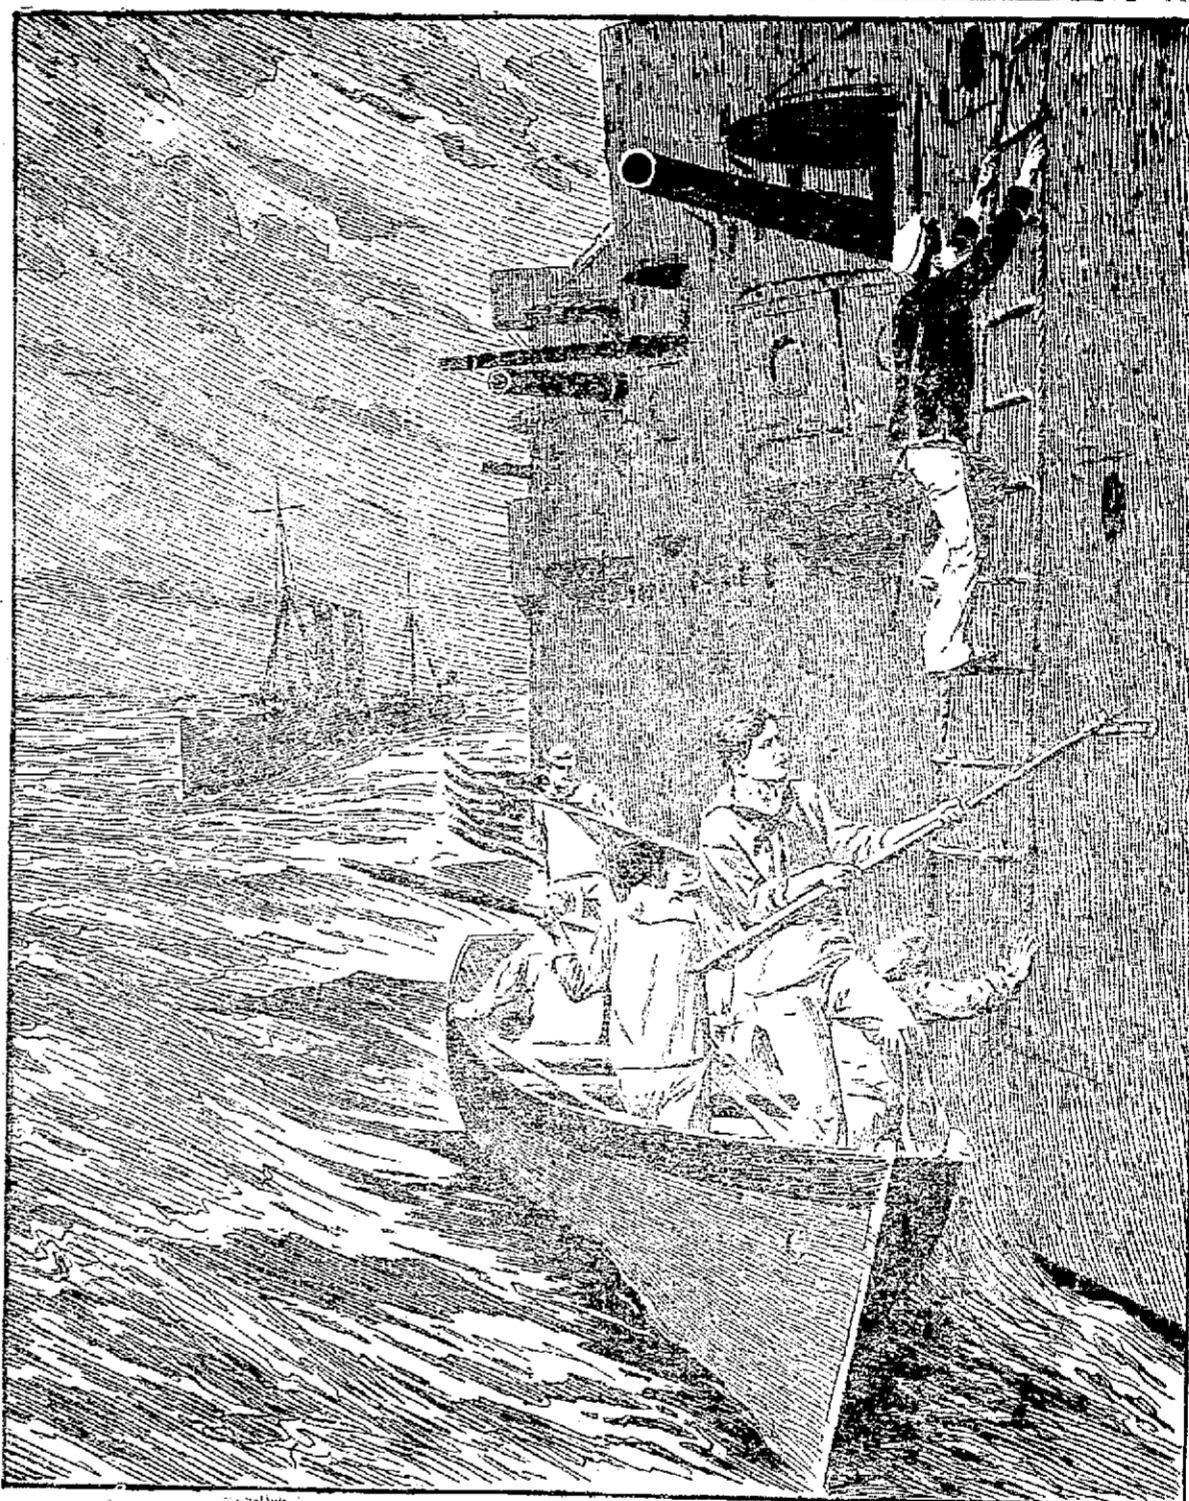

General R. H. Hall is the brigade commander over the First Ohio, General Jacob Kline has the brigade in which the Fifth Ohio is placed and General J. N. Andrews is over the brigade to which the Third Ohio belongs. W. I. B.

Favors Annexation.

Washington, July 2.—The Hawaiian annexation resolution were taken up and Mr. Pettus, Ala., addressed the senate. His was the first formal speech delivered since the opening of the present discussion in favor of the resolutions.

Moved Outside the Harbor.

Port Said, July 2.—Admiral Camara's ships moved outside of the harbor in order to coal from their own colliers. The San Francisco has entered the canal.

DESPATCHES FOR THE ADMIRAL. FROM HARPER'S WEEKLY. DRAWS WHILE ON THE FLAG-SHIP BY RUFUS FAIRBANK ZIMMERMAN.

Reproduced from Harper's Weekly. By Permission. Copyright, 1893, by Harper & Brothers.

party themselves, and, of course, if that were so, the convention would be truly representative. But the confidence I have in the common people points to a new future for the party in Ohio—a time not far distant, when Republicanism will stand up in its true sense and repudiate all false prophets and false gods.

NO COMPROMISE.

There should be no timidity manifest nor compromise thought or on the silver question this fall because of the war. The Democratic party is with the president on all matters pertaining to the war, but it is as unalterably and radically opposed to him and his administration on the silver question as though this war had never been dreamed of.

HANNA WILL DO IT ALL.

Ohio Republicans are going to dispense with state conventions in the future. They are going to leave the nominations of candidates to Hanna. He will save time and expense to him as he has been putting up very lavishly for the conventions, etc., lately.

A MONTH'S MORE AGONY.

There is a prospect now that congress will not adjourn before the end of this month. They are not doing much but drawing their salary, a duty which most of the members seem able to perform with neatness and dispatch

days, but even these seemingly significant commands failed to disturb the calm of the soldiers. The fact is that the men have been fooled too many times by orders to prepare for the journey or that expedition which finally fell through or sailed away without them. They rather think they may go to Cuba some time, but they will never believe they are going until they see themselves marching aboard the transports.

The preparation of the transports and the orders to the regiments to be ready to start were undoubtedly made in view of General Coppinger's proposed expedition with the Fourth army corps. This corps comprises almost all of the troops here or near here, and numbers about 18,000. The First, Third and Fifth Ohio are all in the Fourth corps now, and when that corps moves the Ohio men will go with it in all probability, but how 18,000 men can be moved from here with the present facilities in the time limited by the recent orders is a problem that will never be solved, for it is an impossibility. The nine boats here are capable of carrying about three regiments, and at the rate they are being fitted it would take a month to put them in shape. The fact is there are just an even dozen of men at work on the transports now here, and the rest will have to be gathered here and loaded with supplies before all of the troops can be moved. These facts, which are perfectly patent, furnish another reason why the officers and soldiers here pay so little attention to the orders demanding immediate preparation for an expedition.

Accident Some Time.

But though the men have got past the stage of a soldier's evolution of the work is during the attempts of the bodies of soldiers to approach each other without being seen. Then the men must crawl over the hot sand, taking advantage of every bush and tree to conceal their movements. A sharp reprimand greets any man who heedlessly exposes himself. Stinging cactus prickles and the sharp teeth of the saw palmettos pierce and cut while vicious little red ants add to the general misery of this kind of work. But the officers are relentless and the men crawl on until the final rally and charge. The use of blank cartridges in this drill is not for mere sound and show. By their use the men are taught to load and fire from all positions, and they learn how to advance under cover of the smoke and how to fire at a line of smoke when the enemy is invisible. All of this training must prove valuable in time to come. For the most part this drill has been carried on by battalions, but the Third has had one battle by the full regiment, the first battalion of four companies against the other two.

Less Fortunate.

The First regiment is not so fortunate in its camp. The ground around it is too rough to permit the handling of any body of men much larger than a company. A northerner can hardly conceive what a rough piece of Florida land is like unless he has seen it. The saw palmetto is the worst obstacle which the men meet. It has a thick stem which, instead of growing up in the air, as an ordinary form of vegetation would, grows on the ground and sends out roots from its under surface, while from its end there springs a tuft of leaves. These prostrate trunks almost cover the ground, reaching every direction, and making

ROSES,

Ferns and Smilax

Lent their Adornment to the Mitchell Home.

A Charming Reception.

Phoenix Club Enjoy a 6 O'Clock Dinner.

Pictures Now Form an Important Feature in Social Affairs—Fourth of July Party for Children.

Almost three hundred invitations were issued by Mrs. Elmer B. Mitchell for her reception yesterday afternoon from two to six, and but few regrets were received. The new home was in gala attire for the occasion, each beautiful room having dainty trimmings of ferns and smilax. The La France rose was pre-eminent in the drawing room, while the brilliant meteor rose was used to form a glowing centerpiece on the handsome round mahogany dining table in the long dining room. In the receiving line with the hostess were her sister, Mrs. Joseph Jones, of Muncie, Ind., and her sisters-in-law, Mrs. John Hesse, of Atlanta, Ga., and Mrs. S. K. Blair, of Ft. Wayne, Ind. In various ways the following ladies assisted in making the afternoon a success: Mesdames Francis M. Baxter, Emma M. Decker, E. T. Mitchell, R. L. Bates, Oliver B. Selfridge, J. C. Thompson, J. W. Van Dyke and Walter Standish. The little maids attending the door were Misses Maymie Blair, Marie Decker and Marguerite Mitchell, who were fairy-like beings.

The orchestra was stationed in the oriental room at the stair landing, their sweet music penetrating each room and corner of the house, making a merry accompaniment to the chatter of the callers. In the dining room all enjoyed dainty teas and cakes with coffee or chocolate, served by a bevy of young belles and buds, the list including Misses Inez Lowe, Bess Reichelderfer, Ethel Rockhill, Madge Vail, Kathryn Hoyer, Grace Orchard, Helen Loebe, Mary Gray, Laura Rogers, Louise Lowe, Nella Ritchie, Clara Brotherton, Lulu Fredericks, Kathryn Oxley, Fannie Wise, Mildred Townsend, Lillian Campbell and Madge Mitchell, all in lovely summer gowns.

Messrs. and Mesdames Tabler, Herold and Moser and their children formed an ideal picnic party Thursday, taking their well filled baskets to Dover's lake. After feasting they enjoyed the various amusements until a late hour.

To-day Mr. and Mrs. U. M. Shappell are giving the county clerk's office for an outing, leaving over the Ohio Southern for the southern part of the state, to remain until next Monday. The remainder of the party consists of Mr. Sullivan, Miss Linda Ritzler, Miss Ella Mackenzie and Miss Mabel Mackenzie.

A wedding that was quiet and unpretentious, but which was as happy an event as any of its kind this season, occurred Wednesday evening at the residence of Rev. Charles Kohler, pastor of St. Paul's Lutheran Church. The bride was Miss Lydia E. Sauter, the charming daughter of a prominent resident of Kossuth, O., and the groom was W. F. Hohl, the eldest son of that well known citizen, William Hohl, and wife, of south Main street. The happy young couple have gone to housekeeping at 615 south Main street, where they will receive their legion of friends.

The Phoenix Club were fortunate in having an unusually cool evening on Wednesday for their dinner at six-thirty o'clock, at the home of Mr. and Mrs. Frank McCoy. The guests were the husbands, of course, and Mr. and Mrs. Will Nunan and Mr. and Mrs. Neilman. All were seated at two long tables, which were daintily decked with sweet peas and ferns and armations for favors. The dinner was an excellent one of several courses, the balance of the evening being given over to playing progressive pinochle, the first trophy

DISAPPOINTED.

Married Life Not Filled with All the Happiness

That He Had Anticipated—News Gathered at the Court House.

William Hoffrichter, through his attorney, P. R. Kerr, has entered suit in probate court for a divorce from his wife, Elizabeth A. Hoffrichter. The petition states that they were married

June 30th, 1896, and alleges that the defendant has been unfaithful of her marital duties, for the past year has refused to live with him and has otherwise been guilty of gross neglect of duty.

MARRIAGE LICENSES.

Cloyd W. Cotner and Blanch Young. Gerry V. Barnet and Minta C. Friend.

TO THE REFORMATORY.

Sheriff Bogart left for Delaware this morning with Pearl Shobe, who upon complaint of her parents before the probate judge was ordered committed to the girl's industrial school at that place.

"OLD GLORY."

A new flag staff was erected on the court house this morning and unless another wind storm destroys this one, "Old Glory" will again float from the court house.

REAL ESTATE TRANSFERS.

Eugenia Meily and George H. Meily to J. R. Sinclair and Thomas C. Morrison, lot 5156 in Meily's west Wayne street addition, \$500.

Joseph Goldsmith and P. B. Garretson, west half of lot 1719 in Jameson's second addition to Lima, \$900.

N. L. Michael to Ella H. McCoy, west half of lot 1720 in Jameson's second addition to Lima, \$1,000.

Rufus E. Turner to Nonteville Turner, twenty acres in Auglaize township, \$1,200.

STAMP

On Pullman Car Tickets Will Be Affixed by the Company.

Employees of L. E. & W. Gravel Trains Will Spend the Fourth at Home.

Ticket agents for the Pullman company at different points have been notified that the Pullman conductors will affix the revenue stamps to the sleeping car tickets when collected, thus avoiding any trouble on the part of the ticket agents, the Pullman company paying for the stamps.

ERIE BRAKEMAN INJURED.

C. W. Marshall, a brakeman on the Erie gravel train, whose home is in Huntington, Ind., was the victim of a coupling accident at Alger which resulted in a broken leg. When about to make a coupling the engineer failed to reduce the speed of his engine properly and Marshall, who was riding on the rear of the tender, ready to make the coupling, but when he discovered that the engine was running too fast he attempted to leap, but his feet became entangled in the air hose, and his leg was badly broken. He was taken to the hospital in Kenton, where his limb was properly dressed.

STRANGE COINCIDENCE.

When over on the south side visit the car works of the Lima Locomotive and Machine Co., where the big flag pole and American flag were recently hoisted, stand with your shoulders against the flag pole and your face directly towards the big flag pole erected by the L. E. & W. shops employees, east of the L. E. & W. round house, and in that position you will be unable to see the pole erected in the C. & E. park by the local yardmen of that road. The three flag poles are on as direct a line as they could have been placed if located by a civil engineer.

NOTES.

The L. E. & W. gravel train crews will come in to-night to spend Sunday and the Fourth at home.

The C. & E. yard men raised their new 78-foot flag pole and hoisted the stars and stripes upon it yesterday.

Engine 51, of the L. E. & W., was run out of the shops this afternoon, having received a general overhauling.

Machinist Welsh, of the L. E. & W., has just completed a handsome cannon, a ten-inch (long) gun, which will be in evidence in the local celebration of the glorious Fourth.

The first combination chair and sleeping car was built at the suggestion of H. M. Bronson, now assistant general passenger agent of the Indianapolis, Bloomington & Western. He secured the consent of general manager Henderson to have one built as a test, and at once the car became so popular that the Indianapolis, Bloomington & Western Company ordered fourteen built. Later a number of southern roads adopted the car, and through their influence the Pullman company commenced building combination chair and sleeping cars.

Christ Episcopal Church,

corner North and West streets. Choral service, without sermon, by ladies' vested choir at 10 a. m. All made welcome. No evening service until further notice.

4th of July Rates via C., H. & D. Ry

On July 2, 3 and 4 the C., H. & D. Ry. will sell excursion tickets at one fare to all points on the C., H. & D., or connecting lines, within 200 miles of Lima.

For Sale.

Driving mare; safe for lady to drive. Second hand wheel taken as part payment. Thos. A. Johnson, Rushmore, O.

BOUND OVER.

The Wreck Sale Cases will Go to the Grand Jury.

The Defense Waives Examination in the Second Case.

At 2:30 o'clock this afternoon mayor Prophet rendered his decision in the wreck sale case, binding S. Steinhart, conductor of the sale, over to the grand jury, his bond being fixed in the sum of \$500. The defense waived examination in the second case and the bond was at first fixed in the sum of \$500 for each case, but the defendant's attorneys claimed that bond in that sum could not be secured, and after considerable argument the mayor and attorney for the prosecution agreed to fix the bond at \$300 in the first case and take the defendant's personal recognizance in the second case in preference to sending the man to jail.

KINDLY REMEMBERED.

Employees of the Niagara Steam Laundry Will Spend the 4th at Detroit.

Messrs. Mosier & Blosser, of the Niagara steam laundry, will give their employees a vacation on the Fourth. Every person in the employ of the laundry was to-day presented with a ticket to and from Detroit. It was a surprise to the 25 employes, who will spend the greatest of national holidays seeing the places of interest at the lake city.

SAWED OFF SHORT.

Valuable Information Flashed Over the Telegraph Wires.

The Hibernal convention at Trenton, N. J., condemned the proposed Anglo-American alliance.

An explosion of molten metal in the plant of the Illinois Steel company instantly killed two men and fatally injured three others.

Thomas McQuinn, a member of the Stonecutters union of Chicago, was arrested on the suspicion that he is the man who lured John J. Flanagan to his death.

William Landy, 49, a well known telegraph operator of New York, shot himself in the head in the basement of the Western Union building and died in a few minutes.

While being docked at Southport, N. C., the torpedo boat Talbot ran into the wharf and damaged herself to the extent of a couple of plates being bent and a rivet or two misplaced.

Ben Jordan of England, after fighting 25 hard rounds with George Dixon, the colored champion, was awarded the honors by Referee Charley White at the Lenox Athletic club, New York.

The McCormick Harvester company has brought suit against the Adams Express company for \$5,000 damages because of the rule of the express company that shippers must pay for revenue stamps affixed to all packages.

Wei and Wei Convention Signed. Peking, July 2.—Sir Claude MacDonnell, British minister to China, and Prince Ching have signed the Wei Hai Wei convention.

A Slight Shock. Los Angeles, July 2.—A slight earthquake shock was felt here shortly before midnight. No damage has been reported.

Persons troubled with diarrhea will be interested in the experience of Mr. W. M. Bush, clerk of the Hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by Melville, the druggist, old postoffice corner, and Heister's drug store, 58 public square.

Elizabeth, N. J., Oct. 19, 1896. ELY BROS., Dear Sirs:—Please accept my thanks for your favor in the gift of a bottle of Cream Balm. Let me say I have used it for years and can thoroughly recommend it for what it claims, if directions are followed.

Yours truly, (REV.) H. W. HATHAWAY.

No clergyman should be without it. Cream Balm is kept by all druggists. Full size 50c. Trial size 10 cents. We mail it.

SIEGE GUN FOR CUBA.

What the New War Factor Is and What It Does.

With the arrival of the American troops in Cuba a new factor in the war appears—the siege guns. The besieging forces are comprised of infantry, cavalry, dismounted cavalry and light artillery batteries of the United States army. The work of the last named arm of the service will be of high importance.

The heavy siege guns used are of three varieties—7 inch siege mortars, 7 inch siege howitzers and 5 inch breech-loading siege guns, mounted in their carriages on heavy wooden platforms, behind earthworks or emplacements. Heavy sand bags will be used for this purpose. The 5 inch siege rifle is used for straight firing against a city's defenses when it is desired to destroy the earthworks or masonry. The 7 inch siege howitzers and the mortars are used for high angle firing. They will drop shells and shrapnel behind the intrenchments into the midst of the enemy.

The charge of the 5 inch siege gun is 12½ pounds of hexagonal powder, with a projectile weighing 45 pounds (including high explosives); for the 7 inch howitzer the charge is 10 pounds of hexagonal powder, ejecting a missile of 105 pounds weight, and for the 7 inch breech-loading mortars 5½ pounds of powder is used to throw a 125 pound shrapnel shell.

These guns may be fired about one round a minute, and their power of destruction is almost inconceivable. From tests made by army officers it has been proved that a shrapnel shell fired from a 5 inch gun will burst with terrific force in about 500 fragments. A 7 inch shrapnel shell will distribute 700 bullets and fragments over a distance 300 yards long and half as broad. These siege guns are, for transportation, attached each to a limber and hauled by horses or mules, ten to a gun. From three to five miles is the most effective range of the 5 inch rifle. The mortars and howitzers may be fired at an angle of 45 degrees or even more, and can be used either close to the objective or at a considerable distance. —New York World.

Wisdom. When Willie, in the regiment, Went out to meet the foe, His swordcut steel, with fence intent And pale, to see him go.

Though sent her heart within her breast, She did not dare to cry— She'd heard in warfare it was best To keep your powder dry.

—Baltimore Sun-Journal.

BURNED

By the Escaping Steam.

Fireman Ballard of the C. H. & D. Seriously Injured

This Morning While on an Engine Waiting to Take Out Train No. 14

—Almost His Entire Body Scalded.

Fireman Ballard, of the C. H. & D., was seriously injured this morning about four o'clock by being scalded with escaping steam from a locomotive. He was on engine 202, which was standing on the track waiting to take out No. 14. He was in the cab of the engine when without any warning the blow-off cock from some cause became loosened and allowed the steam to rapidly escape. The steam came up into the cab and burned the fireman before he was able to escape. He was quickly burned. Groceries' ambulance was called and conveyed the injured man to Myer's hospital. Dr. R. D. Kane was summoned and did all that could be done to relieve the injured man's sufferings. It was found that his arms, neck, hips and rear part of his legs were scalded. The burns, however, were found not to be very deep. The physician stated this morning that he did not think the man injured any of the steam. His injuries are serious, yet it is believed he will be able to recover. It is not known what caused the cock to become loosened.

THE FOURTH.

Where it will be Celebrated by Many Lima People.

Outgoing and Incoming Trains Crowded With Pleasure Seekers.

Dr. R. L. Jones, of Homer, is in the city.

Pete Lora, of Bluffton, is in the city.

Bert Mann will spend the Fourth at Ada.

Prof. Ackerman, of Bluffton, is in the city.

Newton Harpster, of Cairo, is in the city.

Miss Eloise Waters is visiting friends in Toledo.

Miss Cora George, of Ada, is visiting friends in the city.

George Livergren, of Ft. Wayne, is the guest of Frank Rich.

W. T. Maple, of Columbus Grove, was in the city this morning.

Frank Black left this morning to spend a few days on the lakes.

Simon Morris will leave to-morrow to spend a few days in Detroit.

Mrs. S. S. Wheeler is home from a visit with Salem, Ohio, friends.

Mrs. Albert Koch has returned from a visit with friends at Cleveland.

Mrs. Myrtle Bentley, of Bluffton, is in the city visiting her brother.

Miss Pearl Grafton left this morning to visit friends in Mt. Vernon.

Miss Laurel C. Hoessli left to-day for a visit with relatives at Cincinnati.

Will Cooney will spend Sunday and the Fourth at his home in Columbus.

J. G. Moore, the harness maker, left to-day for West Newton to spend the 4th.

Miss Stella Diller and Mrs. A. B. Kibler, of Bluffton, were in the city to-day.

Clint Sealts will spend the Fourth visiting a fair young lady at Mansfield.

Mrs. Terwilliger returned yesterday from a visit with friends at Delaware, Ohio.

W. C. Richards, of St. Marys, was the guest of Miss Myrtle Foster last evening.

Hugo Seligman, Sam Michael and George Keil will spend the Fourth in Detroit.

Wm. Fickel and family, of Franklin avenue, are visiting friends near Mansfield.

Miss Beatrice Hurlbut, of Unionopolis, is the guest of Mrs. G. W. Boop, of Hughes avenue.

Mr. J. E. Hamer has returned home after a two weeks' visit, not any improved in health.

B. G. Harrod, wife and daughter left to-day to spend the Fourth with friends at Dayton.

Mrs. S. B. Kelly, of east North street, is visiting E. G. Kelly and family at St. Johns.

Mrs. John Overy, of east North street, will go to Detroit to enjoy the Fourth with friends.

H. L. Hall and Charles Rumbaugh have returned from an outing at the Lewistown reservoir.

County clerk Shappell and family and Misses Ella and Mabel Mackenzie, Miss Linda Hiltzer and M. J. Sullivan

left this afternoon over the Ohio Southern for P. Isaacville.

Mrs. Stetel and Mrs. Taylor, of Bucyrus, are visiting the family of T. W. Dobbins.

Miss Benn, of west Market street, left yesterday for a summer visit with relatives and friends at Cambridge Springs, Pa., and other eastern places.

John Commerford, superintendent at the Lima Car Works, and Mrs. Commerford will leave to-night for Columbus, to visit their sons over the Fourth.

Messrs. Frank Saylor, Del Brickley, Thos. Saylor, Clarence Hallick and John Fryback, employees at the Fee sawmill, on the south side, left to-day for Markle, Ind., to spend the Fourth.

BATTLE OF MANILA.

July Fourth.

The Gigantic Pyrotechnical Spectacular is under the charge of the Consolidated Fire Works Company of America, which guarantees its success.

The hours for sprinkling are from 8 a. m. to 8 p. m., and from 5 p. m. to 8:30 p. m. No one is permitted to sprinkle lawn or street unless they have a permit from the water works office. A lawn permit does not include street. Anyone sprinkling during other hours, or sprinkling lawn or street without a permit, water will be shut off from those premises.

3-2t THE WATER WORKS BOARD.

Battle of Manila, July Fourth.

The public is cordially invited to inspect the ten battleships now under construction at McCullough's Lake, Sunday, July 3rd. Admission free.

A car load of fireworks were received here yesterday from Cincinnati for the Consolidated Fireworks Company to be used in the battle of Manila, July 4th.

MORE

About Oil Operations

In the Great Fields of Northwestern Ohio.

The Ohio Oil Company Drilling Extensively in Wood County's Developed Territory.

In addition to the extensive June oil report published by the Times-Democrat day before yesterday, the following concerning the present operations in northwestern Ohio will be of interest to the producing fraternity.

In Wood county there is a great change in new operations as the Ohio Oil Company is pushing the drill in the older or developed territory which is known to be productive, and there are 30 more strings of tools at work and eight more rigs than there were at the close of May, and by the close of the July month it is expected that the work will more than be doubled in the county. The Ohio Oil Company wants production and wants it badly, therefore instead of advancing the price of the product to a figure that the oil men would deem a fair price, the company is pushing the drill with the hope of compelling individuals and other companies to drill adjoining leases to protect lines. This is one way of getting the drill started. In Hancock county there is an increase of one in completed wells, but a falling off in production of 240 barrels, owing to the fact that during May this county had to its credit a big well completed on the Wisely farm that swelled the output. In this county there is an increase of six in new work, which is somewhat encouraging. In Allen county three more wells were completed during the month than during June, and a

DECREASE OF FORTY BARRELS in production. In new work there is an increase of five. Auglaize county shows a decline in completed work of four wells and seventy barrels in production, while in new work there is an increase of five. Sandusky county shows but little change in completed work, while in new work there is only an increase of one. While Lucas county is credited with three more wells finished, the production shows a decline of 140 barrels but there is an increase in new work of eight wells and rigs under way. In the balance of the counties there is but a trifling change in operations from the May report.

In Lucas county there is an important well under way which is located near the Casino, and on the west side of the Maumee river. It is being drilled by the Taggart company, and will be one of the most important test wells completed in the county, since the drilling of the famous Klondike well at Ironville. It is now about a settled fact that there is no oil on Presque Isle, from the fact that Joseph Casper has completed a dry venture on the Navarro tract, which is the farthest venture to the north yet made in the direction of the island.

ON THE LAKES

The Kentucky Press Association Will Hold Its Annual Meeting.

About two hundred members of the Kentucky State Press Association, accompanied by the ladies of their families, went north this morning on C. H. & D. No. 2, bound for Mackinac. With them were many ladies and friends. They will take a boat at Toledo, and while aboard the boat the association will hold its annual meeting. The party was a jolly one and represented the press from all the different parts of the Blue Grass State. Col. Craddock, of Paris, Ky., and Col. J. S. Johnson, of Louisville, two well-known writers, were with the party.

NO POISON

Or Foul Air

In our Iceberg Refrigerators, built of hard wood, insulated with cork or charcoal, have a perfect circulating and ventilating system that keeps the chambers sweet and clean. Great ice servers. Best refrigerator in Lima. Prices as low as any.

CAUGHT ON THE STREET.

Brief Items of Interest Concerning Current Events.

James N. Boop has closed out his saloon.

Garfield was shot seventeen years ago to-day.

The P. M. W. & C. freight depot will be closed all day Monday, July 4th.

Born to Mr. and Mrs. Clarence Carroll, at west Grand avenue, a baby daughter.

Mrs. Amanda Iye, a former resident of this city, died at the home of a relative in Tiffin yesterday.

Prof. Jones, of Philadelphia, will sing a solo at the Market Street Presbyterian Church to-morrow morning.

The C. H. & D. freight office will close at 10 o'clock Monday morning, July 4th, and remain closed the balance of the day.

Seventeen years ago to-day Rev. A. L. Manning was ordained to the priesthood. This morning he celebrated high mass at St. Rose church in commemoration of the solemn event.

The fire department has been having considerable trouble the past few days on account of false alarms caused by the lines becoming crossed at points where a gang of linemen are engaged in putting up new lines.

C. H. Sontag and W. C. Tirrill and a corps of assistants have been busily engaged at McCullough's lake all this week building their American and Spanish fleet of imaginary battleships and cruisers that will be used in the reproduction of the battle of Manila, Monday evening. Quite a number of the vessels have been launched.

AGNES GAMBLE

To Appear in Her Native City.

Agnes Gamble, of Lima, who has won enviable success on the dramatic stage with Agnes Herndon and other celebrated stars, will make her local stage debut at Faurot's opera house Wednesday evening, July 13. On this occasion the great comedy-drama, "Miranda," made famous by Margaret Mather, will be presented by a strong cast of Lima's best talent and two of Miss Gamble's professional friends. Already great interest is shown in the event.

HOVER PARK, 4th of July.

The Royal Japanese Troupe at Hover Park upon Independence Day will without doubt give Lima the best outdoor attraction she has enjoyed for many a day.

They were so popular in Toledo this year that they have been recalled the third time. They have been secured at great expense and will give two entertainments, at 2.30 and 7.30, upon a large platform in the center of the park.

If you see them in the afternoon you will want to see them in the evening, in their marvelous feats. Military drill in afternoon by all companies obtainable. City band afternoon and evening. Attractions in auditorium, see hand bills. Fireworks display in evening after Japanese show and auditorium entertainment. 2-2t

\$1,000

In Fireworks—Ten Battleships.

Evening of July 4th, at McCullough's Lake. Admission, 25 cents. Doors open at 7 p. m.; display begins at 8:30. Reserved seats at Melville's Monday morning, July 4th.

BOILED WATER

Being Consumed by the Second Regiment Boys

As a Precaution Against Disease—Battle Exercises Yesterday.

Chickamauga Park, Ga., July 2.—The second Ohio was out in heavy marching order for battle exercise all forenoon yesterday. The men were equipped just as is expected of them when they enter the campaign in Cuba or Porto Rico. Only boiled water is being used by this regiment, as an extra precaution against disease.

Privates Ernst Weber, company I, Second, and Chester Jackson, company H, Sixth Ohio, who have been seriously ill at the division hospital, have, with 10 other patients, been transferred to the Leiter hospital at Crawfish Springs.

Private Allen Hume, company I, Second regiment, tried by brigade court-martial for stealing from his comrades, has been sentenced to six months at hard labor in a military prison, all pay forfeited and a dishonorable discharge at that time. He was taken to Ft. McPherson, Ga., this afternoon by a guard detailed from the Fourteenth Minnesota.

NO PAPERS

Are Being Published in the Windy City To-day.

The Stereotypers Demanded More Pay—Being Refused. They Struck.

No Chicago papers were received in the city this morning and none will be received here to-morrow. The windy city itself is without an issue of a single local paper. The stereotypers of all the papers, on account of the extra work required of them by the large number of extra editions that have been published since the declaration of war, have demanded increased pay and shorter hours. The publishers refused to grant their request, and the stereotypers, who are well organized, immediately refused to work until their demands have been granted.

NO POISON

Or Foul Air

In our Iceberg Refrigerators, built of hard wood, insulated with cork or charcoal, have a perfect circulating and ventilating system that keeps the chambers sweet and clean. Great ice servers. Best refrigerator in Lima. Prices as low as any.

THE NEWSON-DEARIN-BOND CO.

Sunday School Picnic.

The North Jefferson Street Mission Sabbath School will picnic in Faurot's grove, just south of the base ball grounds, Monday, July 4th.

All who wish to spend a quiet day are invited to fill their baskets and come and join us in this delightful natural park. Religious service in the afternoon.

W. A. COLTER, Supt.

The lakes of Epworth church will serve ice cream and cake, sandwiches and coffee on the lawn of Mrs. Conrad, 613 North Jefferson street, July 4th, all day.

To the Public.

I desire to take this means of expressing my gratitude to the Modern Woodmen of America for their business and promptness in the payment of the death claim due me 17 years ago from the date the proxy of death were sent in an order was sent me for \$2,000. My husband was a member of the order for one year, four months and seventeen days, and during that time he paid to the order, including all dues and expenses of every description, the sum of \$15.30. I am, under those circumstances, certainly recommend to anyone seeking protection the Modern Woodmen of America as a safe and secure order. With best wishes for the future of the order, especially to Lima Camp at Lima, Ohio, I am gratefully yours.

Mrs. Edgar L. Crozier, Bainbridge, Ohio.

LARGE CLASS

Of Children of St. Rose Congregation To-morrow Morning.

Will Receive Their First Communion at 7 O'clock Mass.

There will be four masses celebrated at St. Rose church to-morrow. The first mass will be for the first communicants, and will be celebrated at 7 o'clock by Rev. A. E. Manning, the pastor. The next mass will be celebrated by Rev. Wm. J. Manning, of Youngstown. The third mass will be said by Rev. J. B. Mooney, and the last mass will be celebrated at 11 o'clock by Rev. Joachim O'Brien, of Cincinnati. The uniform rank Knights of St. John will escort the children of the first communion class from the school into the church, and, during the services, they will serve as a guard of honor. At the conclusion of the mass the first communion class, consisting of 120 boys and girls, will take breakfast with their pastor, Rev. A. E. Manning, which will be served on beautifully decorated tables in the basement of the schoolhouse. Benediction will be at 3 o'clock in the afternoon. All the first communion class will attend this service and will renew their baptismal vows and be received into societies and sodalities of the church.
